# TECHNICAL SPECIFICATIONS

**COUTH**®
INDUSTRIAL MARKING SYSTEMS

## DOT 50x17 P SUPERFAST

## DOT 50x25 P SUPERFAST

### PORTABLE · DOT PEEN MARKING

- Portable dot peen marking unit with **maximum speed**, especially designed to mark pieces in any area and position**.**

## ADVANTAGES

- **Maximum marking speed,** for all kinds of materials and hardnesses up to 62HRC.

- Its **easy-to-disassemble** protective system **reduces maintenance times.**

- Maximum reliability, **uninterrupted productions, and reduced maintenance costs.**

- Highly robust and long-lasting, thanks to the high quality of its components.

- Circular connector to facilitate assembly and disassembly. Possibility of 90-degree rotation.

- COUTH brand is backlit with two-colour LED, providing **visual identification of the marking machine's status.**

- May be purchased with window kit, increasing the machine's support of the part, guaranteeing **higher marking quality.** (Code 2274550)

## CHARACTERISTICS

- 50 by 17 mm marking area.

- 50 by 25 mm marking area.

- Speed up to 16 characters/second.

- Hardness of materials to mark up to 62HRC.

- 6-bar air pressure.

- Different head types, depending on marking needs: pneumatic (N7SB, N10SB, N14SB, N20SB) and electric (S2, S6).

- Protection system that is easy to assemble and disassemble .

- 5-metre robotics wire.

	Other lengths: 10 and 15 metres.

- Marking alphanumeric codes, logotypes, DATAMATRIX™, QR codes, etc.

- Built-in support; point or window option, depending on the piece to mark.

- Connection with **COUTH**smartbox control for integration into production lines (see technical specifications for more information).

- PC edition programme:

	**COUTHvector**, logotype creation.

	**COUTHedit,** marking file creation.

	**COUTHmonitor**, machine status monitoring.

- **COUTHlink.** Library to facilitate connectivity between COUTH smartbox and the production line PLC.
